ADRENALINE 125

The Adrenaline is the flagship model for the brand new Pulse range, exclusive to the Chinese Motorcycle Dealers Network, and rides the current wave of high demand for performance motorcross bikes for the road. Behind the custom-designed vinyls and sleek fairings lies a superb 125cc engine, air cooled and with a maximum torque of 14.5Nm @ 7000 rpm, spoked twin wall wheels with huge supermoto tyres to provide all the power you need. The heavy duty suspension consists of a rear mono-shock with adjustable damper, and upside-down forks to ensure maximum riding comfort. Add this to a smooth 5 gear transmission, hydraulic front disc brake and stylish road tyres, the Adrenaline is among the best of its kind, an opinion substantiated by MCN, having given it a glowing review and a 4-star rating.

"The Adrenaline is great value. It offers all the cool styling of a proper supermoto at a fraction of the cost... it looks the part too, and is particularly impressive from the front" - MCN

"We had more fun on the A47 from Peterborough to Leicester than you would ever have on a Hayabusa" - MCN

GHOST

Find out more!

Redefining the 2T, 50cc market with ultimate styling, responsiveness, handling and reliability the new Pulse Ghost is set to go down a storm in 2011. Open handlebars, chrome exhaust, cutting edge designed plastics, and 2 stroke power band help to make The Ghost one of the most desirable bikes on the market. 2T reliability has never been this good, with a tried and tested engine designed to take the stress and rigour of modern day riding. This is a fun, quick 50cc scooter, that has been designed with modern day appeal in mind.

FORCE

Another new edition to the Pulse family this year is the 4 Stroke (4T) Force. Pulse listened to the feedback of its customers, and due to popular demand have gone with efficiency, and MPG on the new version of the Force. Keeping with the hugely successful design and look of the 2T Force the 4T has some subtle styling changes but brings the big scooter feel and the sports look over from the old 2T version, with added economy and reliability.

LIGHTSPEED 2

With a complete overhaul from the original Pulse Lightspeed, the Lightspeed 2 is another new model added to the range this year and has been upgraded to the highest standard. This 125cc 4 Stroke is set to turn heads in 2012 with its sports scooter looks, feel and performance. Whether jetting down to the shops at the weekend, or commuting to work during the week the Lightspeed 2 is a reason to get excited about being on the road. Fresh looks and a modern sports feel are the way forward with the all new Lightspeed 2.

Move over... the Pulse Lightspeed 2 has arrived.

PHANTOM SERIES

The Pulse Phantom combines an excellent, well built and economical scooter with cutting edge design and styling. The Phantom is aimed to be a sports scooter in both 50cc and 125cc, with graphics and performance to match. Ultra reliability, (as synonymous with the Pulse brand) superb MPG and quality build make this a fantastic new edition to the Pulse range. We think you will be amazed by this scooter

www.pulsemoto.co.uk

For years we have been a leading supplier of scooters and motorcycles in the UK and beyond, providing affordable models to both new and experienced riders. From our years of experience we noticed how unsupported the world of learner legal rides were, and how it was so difficult for those who wanted to get involved with the world of 2-wheels to be able to afford it.

At Pulse, we appreciate that when you're starting your life on the road you want it to be as affordable as possible, and that is why we provide excellent rides at incredibly low prices. Looking good on the road is important too, and we carefully design our vehicles to match our vision of representing the best looking bikes out there.

We believe that style shouldn't come at a premium, or at the cost of substance. Our range is built to balance optimum performance with incredibly affordable running costs, providing all the output you could want while keeping money in your pocket.

It's not just our products that display excellence; our Dealers are selected by their ability to provide you with the best riding experience you could want through their advice, skills and years of experience. We want to provide new riders with the knowledge and skills to make sure they get the best out of their vehicle, and help you stay on the road.

Not often considered when choosing your ride is the importance of having a parts backup that can get your vehicle back on the road, without a lengthy wait or a heavy hit on your wallet. At Pulse our parts backup is entirely UK based, quick to send, and is priced at a level that can set you going again without paying the earth for it. Our Dealers have instant web access to every single part we supply, allowing them to quickly fix up your vehicle to the levels that you expect and we demand.

We hope that your experience with our vehicles give you many years of great riding, and set you up for a lifelong passion for two wheeled adventures.
